

Avconet Ltd., the Aviation Consultancy Network, aims to connect the right people with the right project opportunities by means of global personalized networking. This way long term partner- and client relationships will generate growth, income and mutual beneficial intercultural interaction.

What is the function of an Avconet Local Representative?

In order to act as an Aviation Consultancy Network on a global scale, enabling real know-how transfer between countries, economies and cultures, connecting Senior know-how with the latest research results from Universities and aviation related research institutes brought in from our Juniors and Interns - we need to create, find and work jointly and in intercultural settings in projects around the globe.

As Avconet Representative you will be our Contact Person for every question and inquiry in your country in reference to the projects relating to the business portfolio of Avconet. If any of our Network Partner Companies/organisations, or Experts need any local support you will be the expert to help. The main target however should be to support the Avconet Management team in creating (winning) projects through joint cooperation.

What is in there for me as an Avconet Local Representative?

- You become part of a growing global Network of Aviation Professionals and can benefit from the existing infrastructure. (Company Presentation, References, Proposal Templates, Expert Pool, etc.)
- You can support the Avconet Management Team in search for open positions/jobs in the aviation business in your country against a success fee.
- You can submit a project proposal (project idea, tender, RFP, etc.) from your side to the management team of Avconet. If they are, through your support, leading into a project, it creates both – sales provision for you and the possibility to create yourself the opportunity to work in an international team during the project.
- You can send us job postings that we can publish officially in our web page. If Avconet can provide an expert for this job, you will get a percentage from our commission from the client or the Network Partner Company.
- You recommend an expert for open jobs in our web page. If the proposal is successful, a commission will be paid. Just participate in the 'Recommend an Expert' Program !
- You will be the first point of contact, if we receive requests from our Network members referring to local taxation, legal impacts and all other matters relating to the set-up of a local establishment in your country.

Information for Local Representatives
